Appendix

The CTG Programme (Form 4 to pre-university youths)

CTG was an independent initiative brought in and supported under YTAR since 2019 to help bright, under-represented students navigate the complexities of the post-SPM landscape and help them get into universities. The 2-3 year mentoring and development programme supports high-potential, under-represented students with the knowledge, skills and mindset to enter universities and achieve their fullest potential. Since 2017, CTG has supported 447 Scholars to unlock close to RM14 million in scholarships and pursue universities in Stanford University, University Malaya, Sunway University etc. Find out more about Closing The Gap [here](#).

The BTAR Scholarship (University Youths)

Through the Tunku Abdul Rahman Scholarship (BTAR), YTAR identifies and develops high-potential, deserving students who embody Tunku's values to become young leaders working towards a modern, just, and compassionate Malaysia. This scholarship is open to all Malaysians who are planning to pursue their undergraduate studies in a local private or public university, in various disciplines. A Tunku Scholar demonstrates a high level of grit, record of overcoming challenges, strong leadership potential and drive to contribute to Malaysia. We also prioritize applicants from challenging or low-income backgrounds.

As the scholarship emphasises holistic excellence, our Tunku Scholars, as we would call our scholarship recipients, will undergo a 2-year leadership development programme as part of their scholarship experience. The leadership development programme includes mentoring by the Alumni community, developmental opportunities such as workshops and camps as well as an opportunity to lead a community project. The leadership development aspect of the programme will equip the Tunku Scholars with the skills, mindsets, and values to emerge as nation builders. Find out more about BTAR [here](#).

FutureReady (Post-Graduation)

FutureReady is a programme run in collaboration with Accenture Malaysia that aims to help B40 youth thrive in today's competitive graduate job market. The programme is focused on improving employability among high-need youth and upskilling students for a career in the professional services industry through building strong technical skill sets and sustainable mindsets. Since 2021, FutureReady has supported 137 university students and graduates on their upskilling journey. Find out more about FutureReady [here](#).
